

1/3/89 Carl Pellegrino

Please respond  
to this one.  
I had this attached  
to some other  
paper.

I understand this  
one is yours.

Re: September 8, 1988 SPCC Field Inspection of Pfister Chemical, Inc.

Dear Sir/Madam:

We are currently reviewing and updating our SPCC plan. It now contains an updated spill contractor cleanup list and all appropriate telephone numbers are current. Biannual briefings will be included in the plan appendix. In addition a new containment has been added at the off loading area.

All items are either currently in place or will be completed by mid-December.

Very truly yours,

PFISTER CHEMICAL, INC.
